Exempt Health Services

Health services provided by the following practitioners, clinics, hospitals, and other facilities are exempt from state and municipal sales and use tax. (<u>Standard Industrial Classification Manual</u>, 1987, Major Group 80)

1. Offices and Clinics of licensed practitioners:

Doctors of Medicine (M.D.)

Dentists (D.M.D., D.D.S., or D.D.Sc.)

Doctors of Osteopathy (D.O.)

Chiropractors (D.C.)

Optometrists (O.D.)

Podiatrists (D.P.)

Audiologists

Dental hygienists

Dieticians

Inhalation therapists, registered

Midwives

Nurses, registered and practical

Nutritionists

Occupational therapists

Paramedics

Physical therapists

Physicians' assistants

Psychiatric social workers

Psychologists

Speech clinicians

Speech pathologists

2. Offices and clinics of health practitioners that do not have a licensing requirement in South Dakota:

Acupuncturists

Hypnotists

Naturopaths

Psychotherapists

Christian Science Practitioners

3. Nursing and Personal Care Facilities engaged in providing in-patient nursing and health-related personal care:

Skilled Nursing Care Facilities

Intermediate Care Facilities

Nursing and Personal Care Facilities

4. Hospitals:

General medical and surgical hospitals

Psychiatric hospitals

Specialty hospitals

5. Medical and Dental Laboratories:

 Medical Laboratories providing analytic or diagnostic services to the medical profession or to the patient on prescription of a physician.

- Dental Laboratories engaged in making dentures, artificial teeth, and orthodontic appliances to order for the dental profession
- 6. Home Health Care Services providing skilled nursing or medical care in the home under supervision of a physician
- 7. Miscellaneous Health and Allied Services:
 - a) Kidney Dialysis Centers
 - b) Establishments primarily engaged in outpatient care
 of a specialized nature with permanent facilities
 and with medical staff to provide diagnosis,
 treatment, or both for patients and do not require
 inpatient care:
 - 1) Alcohol treatment, outpatient clinics
 - 2) Biofeedback centers
 - 3) Birth control clinics (family planning)
 - 4) Drug treatment, outpatient clinics
 - 5) Outpatient detoxification centers
 - 6) Outpatient mental health clinics
 - 7) Outpatient treatment clinics for alcoholism and drug addiction
 - 8) Rehabilitation centers, outpatient (medical treatment)
 - 9) Respiratory therapy clinics
- c) Establishments primarily engaged in providing health and allied services:
 - 1) Artists, medical
 - 2) Blood banks
 - 3) Blood donor stations
 - 4) Childbirth preparation clinics
 - 5) Health screening services
 - 6) Hearing testing services
 - 7) Insurance physical examination services (except by physicians)
 - 8) Medical photography and art
 - 9) Osteoperosis centers
 - 10) Oxygen tent services
 - 11) Physical examination services (except by physicians)
 - 12) Plasmapheresis centers
 - 13) Sperm banks

Prescribed Health Services

The purchase of a health service pursuant to a prescription does not automatically exempt the service from sales or use tax. In order for a prescribed health service to be exempt, the service must be provided by a healthcare practitioner listed above.

Examples

- 1. Dr. Smith's patient has high cholesterol. Dr. Smith prescribes a consultation with a dietician. The dietician's services are not subject to sales or use tax because they are listed in the previous pages.
- 2. Dr. Brown prescribes aerobic exercise three times a week for a patient. The patient takes the prescription to an athletic facility and registers for aerobic classes. The athletic facility owes the 4.5% state sales tax, plus applicable municipal sales tax on the fees for the class. The athletic facility is not listed as a healthcare facility and the prescription does not exempt their fees.
- 3. Dr. Jones prescribes a weekly massage for his patient. The patient takes the prescription to Massage Stop. The Massage Stop owes the 4.5% state sales tax, plus applicable municipal sales tax on the fees for the massage. The Massage Stop is not listed as a healthcare facility and the prescription does not exempt their fees.

Lab Testing and Drug Testing Services

Medical laboratory services are subject to the 4.5% state sales tax, plus applicable municipal sales tax unless the laboratory service is:

- 1. provided to a medical professional;
- 2. provided to a patient as prescribed by a physician; or
- 3. provided by a healthcare professional.

Drug testing services are subject to the 4.5% state sales tax, plus applicable municipal sales tax, unless provided by a healthcare practitioner.

Lab testing and drug testing services are subject to sales tax based on where the test results are received. Use tax is due where the testing is used, i.e., if for testing employees, use tax applies where the employees work.

Lab testing or drug testing services may be purchased for resale if the following criteria are met:

- 1. the service is purchased for a specific customer;
- 2. the service is not used by the purchaser; and
- 3. the results are passed on unchanged to the customer.

Test Kits

Test kits are not subject to sales or use tax when sold to or prescribed by a physician, chiropractor, optometrist, dentist, or podiatrist for a single patient. All other test kits not prescribed for a single patient are subject to the 4.5% state sales/use tax plus applicable municipal sales or use tax.

Examples

ABC Testing performs drug tests for various companies. ABC is not an
exempt health service provider. ABC uses test kits to obtain samples. ABC
sends the samples to a lab and sends the lab results to the customer. ABC
bills the customer for the test kit, lab service, and ABC's service.
 Tax applies as follows:

- ABC's total charge to the customer is subject to the 4.5% state sales tax, plus applicable municipal sales tax at the customer's location because that is where the customer receives the results.
- ABC must pay sales or use tax on their purchase of the test kit because ABC is using the test kit in providing their service.
- ABC can purchase the lab service for resale because the lab service is purchased for a specific customer, is not used by ABC, and the lab results are sent to the customer unchanged.
- 2. Ace Manufacturing tests employees for drug use. Ace purchases drug test kits and sends the kits to the lab to be analyzed. The kits and the lab services are subject to the 4.5% state sales tax, plus applicable municipal sales tax because the service is not prescribed by or done for a healthcare practitioner.
- 3. Ace Manufacturing is monitoring three employees for potential drug use. Dr. Smith gives the three employees drug tests at Smith's Health Clinic. Because the test is provided by a healthcare practitioner, it is not subject to sales or use tax. Dr. Smith does not owe sales or use tax on the test kit or the lab fees.

Medical Expert Consulting and Testimony

Except as provided below, medical expert consulting services and medical expert testimony associated with litigation are subject to the 4.5% state sales tax, plus applicable municipal sales tax.

Example

Dr. Smith is hired to testify in a malpractice suit as to the condition and appropriate treatment of the plaintiff, John Doe. John Doe is not Dr. Smith's patient. Although Dr. Smith reviewed the plaintiff's medical records and took the appropriate x-rays and tests, this information was used by Dr. Smith to form an opinion that was presented at the trial and was not used to treat the plaintiff. Dr. Smith is providing an expert witness service subject to sales tax. No deductions may be taken for the charges for x-rays or testing that are used by Dr. Smith in providing the service.

Medical expert consulting and testimony by a healthcare practitioner concerning the diagnosis or treatment of the practitioner's patient are not subject to sales or use tax.

Examples

- Dr. Smith's patient, Jim, was in a car accident. Jim's attorney paid
 Dr. Smith to testify in a lawsuit concerning Jim's injuries from
 the accident. Dr. Smith does not owe sales tax on the receipts for
 testifying because the services were associated with the diagnosis
 or treatment of Jim.
- 2. Dr. Smith contracts with a health insurance company to review the insured's treatments to determine if the treatment is appropriate and within the coverage provided by the insurance company. This is a consulting service subject to the sales tax. This is not a service provided for Dr. Smith's patients.

Services concerning diagnosis or treatment that are incidental to consulting services associated with litigation constitute health services and are not subject to sales or use tax.

Example

Dr. Smith is hired to testify in a malpractice suit as to the condition and appropriate treatment of the plaintiff, John Doe. John Doe is not Dr. Smith's patient. Although Dr. Smith reviewed the plaintiff's medical records and took the appropriate x-rays and tests, this information was used by Dr. Smith to form an opinion that was presented at the trial and was not used to treat the plaintiff. Dr. Smith is providing an expert witness service subject to sales tax.

While examining John Doe, Dr. Smith discovered another medical condition that he disclosed to John Doe. John Doe then pursued Dr. Smith's medical services in treating this condition. Dr. Smith's medical services to treat John Doe are not subject to sales or use tax

Temporary Help/Contract Services

Services provided by a temporary help agency are subject to the 4.5% state sales tax, plus applicable municipal sales tax. However, temporary healthcare services provided by a temporary help agency or an office or clinic of licensed healthcare practitioners on a contract or fee basis are not subject to sales tax. This includes doctors, nurses, medical lab technicians, pharmacists, and other service providers as listed in "Exempt Health Services" section of this document.

Examples

- 1. A temporary help agency employs nurses, medical secretaries, and lab technicians. The temporary help agency provides employees to for-profit hospitals and clinics when the for-profit hospital or clinic needs help. The for-profit hospital or clinic then controls the work done by these employees. Because the temporary help is that of people providing exempt health services, the temporary help agency does not owe sales tax on their receipts.
- 2. Dr. Smith contacts the local hospital to have one of their employees, Dr. Jones, work at Dr. Smith's clinic while Dr. Smith is on vacation. Dr. Smith pays the hospital directly, who then pays Dr. Jones. Because the services provided are healthcare services, the fees received by Dr. Jones are not subject to sales or use tax.
- 3. A group of registered nurses organize to contract their services to hospitals across the country. Because the nurses are licensed healthcare practitioners, the fees charged to the hospitals for healthcare services are not subject to sales or use tax.

Ambulance Services

Gross receipts from air and ground ambulance services are not subject to sales tax.

Equipment and supplies purchased by an service are subject to the 4.5% state sales tax, plus applicable municipal sales tax. Non-profit hospitals, governments, and volunteer ambulance departments are exempt from sales or use tax on items purchased for use by the ambulance service.

Educational Classes

Classes such as childbirth classes, quit smoking clinics, and athletic injury classes are healthcare services exempt from sales tax when provided by a healthcare practitioner.

Exempt Products

Sales of products and services to for-profit hospitals, clinics, nursing homes, surgical centers, and healthcare staff are subject to sales tax unless the product is because it will be prescribed or resold. Sales of products to nonprofit hospitals are exempt from sales tax.

A prescription means an order, formula or recipe issued in any form of oral, written, electronic, or other means of transmission by a duly licensed practitioner.

<u>Drugs</u>

The sale of drugs for use by humans is not subject to sales or use tax if the drugs are prescribed by prescription, dispensed or administered by a physician, chiropractor, optometrist, dentist, podiatrist, or audiologist.

Drugs mean any compound, substance or preparation, Mobility enhancing equipment includes repair and replaceand any component of a compound, substance preparation, other than "food and food ingredients," "dietary supplements" or "alcoholicis:

A. Recognized in the official United States Pharmacopoeia, official Homeopathic Pharmacopoeia of the united States, or official National Forumlary, and supplement of any of them; exempt when prescribed by a physician, chiropractor, optom-

B. Intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease; or

C. Intended to affect the structure or any function of the body.

Insulin

The sale of insulin for use by humans is exempt from sales tax whether sold with or without a prescription.

Nutritional Supplements

Nutritional supplements dispensed by a physician, chiropractor, optometrist, dentist, podiatrist, or audiologist are subject to sales and use tax.

Drug Samples

Samples of drugs given to a physician, chiropractor, optometrist, dentist, podiatrist, audiologist, clinic, or hospital are exempt from sales tax because these drugs must be prescribed by a physician, chiropractor, optometrist, dentist, podiatrist, or audiologist.

Over the Counter

Drugs or medicinal preparations sold without a prescription are subject to the 4.5% state sales tax, plus applicable municipal sales tax. If prescribed, the drugs are exempt from sales tax.

- aspirin
- · cough suppressants
- dressings
- tonics

Mobility Enhancing Equipment

Mobility enhancing equipment used by humans is exempt from sales tax if it is prescribed by prescription from a physician, chiropractor, optometrist, dentist, podiatrist, or audiologist.

Mobility enhancing equipment means equipment which:

A. Is primarily and customarily used to provide or increase the ability to move from one place to another and which is appropriate for use either in a home or a motor vehicle; and B. Is not generally used by persons with normal mobility;

C. Does not include any motor vehicle or equipment on a motor vehicle normally provided by a motor vehicle manufacturer.

ment parts to the equipment.

Mobility enhancing equipment does not include durable medical equipment.

The following examples of mobility enhancing equipment are etrist, dentist, podiatrist, or audiologist for use by humans:

- bath aid tub and shower stools
- canes
- crutches
- · motorized carts
- stair lifts
- walkers
- wheelchairs
- lift and controls specifically added to motor vehicles

Durable Medical Equipment

Durable medical equipment used by humans is exempt from sales tax if it is prescribed by prescription by a physician, chiropractor, optometrist, dentist, podiatrist, or audiologist.

Durable medical equipment means equipment which:

- A. Can withstand repeated use; and
- B. Is primarily and customarily used to serve a medical purpose; and
- C. Generally is not useful to a person in the absence of illness or injury; and
- D. Is not worn in or on the body.

Durable medical equipment includes repair and replacement parts for the equipment.

Durable medical equipment does not include mobility enhancing equipment.

NOTE: Exercise equipment and hot tubs are not durable medical equipment and are subject to sales tax even when prescribed.

The following examples of durable medical equipment are exempt when prescribed by prescription by a physician, chiropractor, optometrist, dentist, podiatrist, or audiologist for human use:

- bath and shower chairs
- blood pressure gauges
- feeding pumps
- glucose meters
- hospital beds (prescribed for specific patient)
- portable breathing machines

Examples of durable medical equipment that are taxable:

- x-ray machines
- cat (CT) scans
- dialysis machines
- MRI machines
- hospital beds
- exam instruments (examples are):
 - (a) stethoscopes
 - (b) thermometers
 - (c) blood pressure gauges
- surgical instruments (examples are):
- (a) retractors
- (b) forceps
- (c) scissors
- (d) surgical needles
- (e) surgical knife handles

- (f) clamps
- (g) needle holders

Repairs and replacement parts to taxable durable medical equipment are subject to sales tax. However, replacement parts for taxable durable medical equipment that are for <u>single patient use</u> only are considered medical devices and are exempt from sales tax when prescribed.

Examples: oxygen supply tubing, hemodialysis tubing, and x-ray film.

Bathroom safety equipment such as tub and shower grab bars, showers seats, commodes and handicapped seating are durable medical equipment exempt from sales and use tax when prescribed by a physician, chiropractor, optometrist, dentist, or podiatrist. The installation of these items may be subject to contractors' excise tax when installed by a contractor. The contractor is liable for contractors' excise tax on the contract price and for use tax on the items installed.

Prosthetic Devices

Prosthetic devices used by humans are exempt from sales tax when prescribed by prescription by a physician, chiropractor, optometrist, dentist, podiatrist, or audiologist.

Prosthetic device means a replacement, corrective, or supportive device worn on or in the body to:

- A. Artificially replace a missing portion of the body;
- B. Prevent or correct physical deformity or malfunction; or
- C. Support a weak or deformed portion of the body.

Prosthetic devices include the repair and replacement parts for the devices.

Examples are:

- artificial arms and legs
- artificial eyes
- braces
- corrective eyeglasses
- contact lenses (corrective)
- dental prosthesis
- · hearing aids
- heart valves
- living skin substitute
- pace makers
- stents
- stockings compression
- sutures and staples

Hearing Aid Batteries

Batteries labeled as "hearing aid batteries" that are sold to operate a hearing aid are exempt from sales tax. Batteries that have multiple uses continue to be taxable. If there is any question as to the use of the batteries, an exemption certificate should be obtained from the purchaser.

Medical Device

The sale of any medical device is exempt from sales tax when the medical device is prescribed by prescription by a physician, chiropractor, optometrist, dentist, podiatrist, or audiologist for use on a single patient.

A medical device is any instrument, apparatus, implement, contrivance, or other similar or related article, including a component, part, or accessory, that is <u>for use on a single</u> patient and that is:

- Recognized in the official National Formulary, or the United States Pharmacopoeia, or any supplement to them;
- 2. Intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, detection, or prevention of disease, of the human body; or
- 3. Intended to affect the structure or any function of the human body, and that does not achieve any of it's primary intended purposes through chemical action within or on the human body and that is not dependent upon being metabolized for the achievement of any of its primary intended purposes. A medical device is not durable medical equipment, mobility enhancing equipment, or a prosthetic device.

Medical devices that are usable on multiple patients or that are used for purposes other than on a single patient are subject to the 4.5% state sales tax, plus applicable municipal tax.

Repairs and replacement parts for medical devices sold under a prescription are exempt from sales and use tax. If there is not a prescription for the original item sold or for the repairs or replacement parts, the repairs or replacement parts will be subject to 4.5% state sales tax, plus applicable municipal tax.

Replacement parts for durable medical equipment that are <u>for use on a single patient</u> are considered medical devices and are exempt when prescribed.

Replacement parts for durable medical equipment that are usable on multiple patients are subject to the 4.5% state sales tax, plus applicable municipal tax.

Exempt Medical Devices

Medical devices purchased by individuals are exempt if the individual has a prescription for the medical device.

Examples of medical devices that are exempt when prescribed by prescription and can only be used on a single patient are:

- adhesive bandages
- alcohol wipes, pads, and swipes
- · cast materials
- chem strips
- cotton swabs
- disposable clamp covers
- disposable curettes
- disposable drapes, sheets, towels
- disposable electrodes
- disposable patient gowns (exam and surgical)
- disposable surgical instruments (examples are):
 - (a) knife blades
 - (b) saw blades
 - (c) staple guns and syringes
- disposable syringes
- dyes
- gauze
- heelcups
- · preformed cuffs
- probe covers
- surgical kits (prepackaged). If the clinic or surgical unit prepares the kits, each item is taxed according to its taxability.
- tongue depressors
- disposable tubing (examples are):
 - (a) cannula
 - (b) chest drainage tubing
 - (c) heating tubing
 - (d) hemodialsys tubing sets
 - (e) oxygen supply tubing
 - (f) perfusion pack
 - (g) suction tubes
- test kits
- xylene and liquid nitrogen used to freeze and process specimens
- x-ray film

Ostomy Care Supplies

Devices and supplies designed or intended for ostomy care and management are exempt from sales and use tax with a prescription. These devices and supplies include collection devices, colostomy irrigation equipment and supplies, skin

barriers or skin protectors, and other supplies designed for use of ostomates.

Taxable Medical Devices, Supplies and Equipment

Medical devices, supplies, and equipment used by health-care practitioners, health clinics, and for-profit hospitals that are not prescribed for use on a single patient are subject to the 4.5% state sales tax, plus applicable municipal tax when purchased. Gloves, gowns, and other protective gear worn by healthcare staff are subject to sales tax.

Some medical devices purchased in bulk may be used by staff or prescribed for <u>use on a single patient</u>. If documentation is kept to identify the items prescribed for <u>use on a single patient</u> then those items are exempt from sales or use tax. Items used by staff are subject to sales or use tax.

Examples of taxable medical devices, supplies, and equipment are:

- comfort kits
- drapes
- exam tables, chairs, stools, etc.
- felt tip markers
- gloves, gowns and other protective gear used by healthcare staff
- lab equipment and chemicals
- lubricating jellies
- medical equipment (not for a single patient only)
- nonprescription glasses or sunglasses
- operating equipment
- personal hygiene items such as shampoo,toothpaste, mouthwash, and anti-perspirants
- rubbing alcohol
- scrubs and uniforms
- sodium chloride used as a cleaning solution (not used on a person)
- stickers and labels for x-rays and tests
- wrist bands
- x-ray equipment and chemicals

General Equipment and Supplies

Equipment and supplies used by healthcare practitioners, health clinics, and for-profit hospitals that are not medical devices are subject to the 4.5% state sales tax, plus applicable municipal tax when purchased.

Examples include the following:

- batch controls
- books and other publications
- candy, stickers, balloons, pens, and toys given to patients
- cleaning supplies

- computer hardware, software, and printing equipment
- containers used to hold cotton swabs, cotton balls, tongue depressors, etc.
- containers (petri dishes, vials, pipettes, slides, cassettes, swabs)
- copier and fax machines
- any equipment on a depreciation schedule
- furniture
- leases of equipment
- liquid nitrogen and xylene used as a cleaning solution
- magazine subscriptions
- office supplies such as manila file folders, paper, envelopes, stationery, etc.
- office furniture
- paper products including paper used to cover examtables, paper towels, etc.
- promotional materials such as information brochures, calendars, refrigerator magnets
- telephone and communication systems

Repair and Replacement Parts for Taxable Equipment and Supplies

Repairs and replacement parts for taxable products are subject to the 4.5% state sales tax, plus applicable municipal tax.

Taxable Services

Unless otherwise exempt, services purchased by healthcare practitioners, health clinics, and for-profit hospitals are subject to the 4.5% state sales tax, plus applicable municipal sales tax.

Examples include the following:

- accounting services
- consulting services
- computer support services
- janitorial services
- legal services
- maintenance agreements on equipment
- maintenance of buildings and grounds
- management services
- medical transcriptionist services
- security services
- snow removal
- temporary help services
- third-party administrators

Medical Records

Charges for copying or the sale of medical records is subject to the 4.5% state sales tax, plus applicable municipal sales tax. Medical records sold to Medicaid or

other exempt entities are exempt from sales and use tax.

For example, an attorney requests a copy of a client's medical records. The charge to the attorney for copying the records is subject to the 4.5% state sales tax and any Sales for Resale municipal sales tax based on where the records delivered to the attorney.

Lodging

Chargesfor sleeping rooms for non-patients are subject to the 4.5% state sales tax, plus applicable municipal sales tax.

Patient Meals

Patient meals are subject to the 4.5% state sales tax, plus the municipal sales tax rate. Sales tax on food furnished to patients must be computed on \$9.66 per patient day. Hospitalmeals paid for by Medicare, Medicaid, CHAMPUS, Indian Health Services, or county poor relief are exempt from sales and use tax. The sale of other food is subject to the 4.5% state sales tax, plus municipal sales and gross receipts taxes for eating establishments. If the medical facility has the meals catered, the medical facility may pay the 4.5% state sales tax, plus municipal sales and gross receipts taxes for eating establishments directly to the caterer.

Food provided to residents of a nursing home is subject to the 4.5% state sales tax, plus the municipal general tax rate. Sales tax may be computed on \$9.66 per patient day or on the actual charges. Nursing homes also have the option to pay sales tax to their suppliers. If the nursing home pays sales tax to the supplier, they do not owe sales tax on the In South Dakota, more than 200 municipalities have an adcharge to the patient for the meal. Nursing home meals paid ditional sales or use tax. A listing of municipality's tax rates is by Medicare, CHAMPUS, Indian HealthServices, or county in the Municipal Tax Information Bulletin which is available poor relief are subject to sales tax. Meals paid by Medicaid online at http://dor.sd.gov or by calling 1-800-829-9188. are exempt from sales tax as of July 1, 2007.

Use Tax

exemption certificate are subject to use tax, if sales tax was not paid at the time of purchase. The state use tax rate is 4.5%, plus applicable municipal use tax, and is payable to the department in the filing period in which the healthcare practitioner, health clinic, for-profit hospital or other sales tax. healthcare facility receives the supplies or services.

supplier charges another state's sales tax.

Whena purchase is made out-of-state and possession is taken out-of-state, the supplier may charge that state's sales Non-profit hospitals are exempt from South Dakota sales and tax. If the other state's sales tax is the same or more than use tax on supplies and services purchased for use by the South Dakota's tax, no South Dakota use tax is due. If it is

less than South Dakota's, the difference is due in use tax. The state plus applicable municipal taxes must be added together to determine if additional tax is owed.

Ahealthcare practitioner, health clinic, hospital, and healthcare facility may sell services or products for resale if the buyer provides an exemption certificate. It is the buyer's responsibility to know when a service or product qualifies as a sale for resale. State law requires an exemption certificate to be complete and accurate. The buyer will be responsible for properly completing an exemption certificate.

The seller must keep all exemption certificates in their records. For more information on sales for resale view Exemption Certificate Tax Fact at http://dor.sd.gov or request a copy by calling 1-800-829-9188.

Purchases for Resale

Healthcare practitioners, health clinics, hospitals, and healthcare facilities must give an exemption certificate to their suppliers in order to purchase otherwise taxable services and products for resale exempt from sales tax.

State law requires exemption certificates to be complete and accurate. The buyer will be held responsible for properly completing an exemption certificate. Exemption certificates may be obtained from the department's website, http://dor. sd.gov, or by calling 1-800-829-9188.

Municipal Tax

Exempt Entities

Accredited non-profit schools, non-profit hospitals, approved Supplies, materials, or services purchased without an relief agencies, and government entities are exempt from sales tax.

> Medicaid payments are payments direct from the state. Products and services paid directly by Medicaid are exempt from

Medicare is an insurance plan administrated by the federal Products delivered into South Dakota by the supplier are government. Purchases by Medicare are subject to sales tax subject to the South Dakota sales or use tax, even if the unless it is the purchase of a prescribed medical or prosthetic device, mobility enhancing, equipment, durable medical equipment, or drug.

nonprofit hospital. Non-profit hospitals should provide the

supplier with an exemption certificate. For more information, view the Non-Profit HospitalsTax Fact on our website at http://dor.sd.gov or request a copy by calling the department toll free at 1-800-829-9188.

Government entities must provide an exemption certificate to the vendor or the vendor must keep documentation to show the purchase was paid from government funds. Documentation may include a purchase order or a check stub.

Relief agencies and religious or private schools must provide an exemption certificate to purchase products and services exempt from sales and use tax.

Required Records

Healthcare practitioners, health clinics, hospitals, and healthcare facilities must have a South Dakota sales or use tax license. Records, such as purchase and sales invoices, bills of lading, books of all receipts and sales, cash register receipts, and other pertinent papers and documents, are required to be kept for at least three years and be available for inspection during business hours.
